

# ROOM 79 | TERM FOUR NEWSLETTER | 15.10.2018

Wow! What a challenging yet awesome third term it was! Your child did an amazing job both in and around the classroom and school. I look forward to what lies ahead of us.

## Term Three Review

Your child focused on people who have had influence on who they are today. It was great to hear about what they had been learning in Humanities, Math, and Science as well as their module subjects. I hope you enjoyed what your child had to share about this during their SIC. In saying that, I would like to thank you for meeting with me for SIC's. It was great being able to discuss your child's progress not only as a learner but also as a citizen of our school. I look forward to our next SIC's at the end of Term Four.

Thank you to our parent helpers for supporting our school wide trip to the Auckland Zoo. We trust you enjoyed spending time with our tamariki and got lots out of it as well.

In Weeks 8 and 9 our class put together a bid to host the Commonwealth Games in our given country of Malaysia. During this time our students learnt interesting facts about Malaysia and showed great creativity in producing our bid. I hope you had time to observe your child's hard work.

## Term Four Preview

MODULE 8: MI Place begins at the start of this term. I look forward to seeing your child's learning journey throughout this module.

Our school wide EOTC week is in Week 9 where your child will enjoy a range of outdoor activities.

Rec will happen every Thursday afternoon in place of Options.

Just like every other term this year, Term Four will be full on so your child will need to be on top of both their academic and other school commitments. Balancing these is an important life skill and part of their learning.

Your child will have the following teachers for Term Four:

Humanities:	Miss Te Paea Adams
Math:	Mr Tumii Poko
Science:	Mr David Martens
Physical Education:	Miss Melissa Lee
Digi Comp	Ms Tanya Kearney
Social Development:	Mr Eriha Kapa

## Student Involved Conferences

SIC's will take place on Thursday 13 December from 8am-8pm. More information regarding SIC's will be sent home closer to this date. It is important that both you and your child attend the conference so that together we can discuss their learning and the next steps they need to take to progress further in their school life.

## Attendance

Our class attendance in Term Three was very disappointing. 100% attendance everyday and every week is still high priority. It's important that your child shows consistent positive patterns in attendance throughout Term Four. Commitment is an important life skill.

Faafetai lava,

Junior Peilua

I will be calling you if your child is away. If you see the number 2668268 [SCHOOL] please pick up - it's just me worried about your child.
