Term 4 - October 14, 2019

Room 75 Newsletter

Kia ora, Talofa Lava, Kia orana, Fakaalofa lahi atu, Mälö e lelei, and Hello!

Highlights from Term 3

As a class, we really improved attendance, with high 90's most weeks. We even won the coveted RIMU "R-Chain" a couple of times, which means we had the highest attendance in a weekly period within the Whanau. Keep up your efforts to help your child be organized and on time. Remember: there's a free and healthy breakfast program at the school from 7:30 - 8:15am.

Students met members of the Warriors. Room 75 pictured with their Humanities teacher, Mr. Wilding.

MI Forensics Learning:

Our learning in science centred first on the mysterious disappearance of Mr. Hutching's workout weight from the teacher's workout gym and then transitioned to an exploration of the nature of science with respect to how liquids function (displacement, buoyancy).

MI STEAM Fair:

Students created exciting displays (some interactive) of their learning in science. There was a lot of variety: some students made rockets, some aeroplane and car models with electric motors, catapults, ballistae, powered windmills, and some made natural health care products! They were all very creative and memorable.

Ask your child about:

Our learning in Hauora about **Balanced Eating**. Reducing sugar and balanced eating are our class goals!

Term 4 Preview

We will be inquiring into how diseases and cures have shaped our world. In Science, students will be looking at the nature of different types of cells and experimenting with how bacteria grow. In Humanities we will be looking at different diseases from around the world, and how humanity has responded to them.

If you have any questions or concerns, please don't hesitate to contact me.

Ngā mihi nui,
Mr. Sveta

Term Teachers

Humanities: Mr. Wilding
Sustainable Enterprise: Ms. Wright

Math: Mrs. Kim
Physical Education: Mr. Shepherd
